## Industrial Production Quantities increase by 4.2% during September

### 2017 compared with the same month of 2016

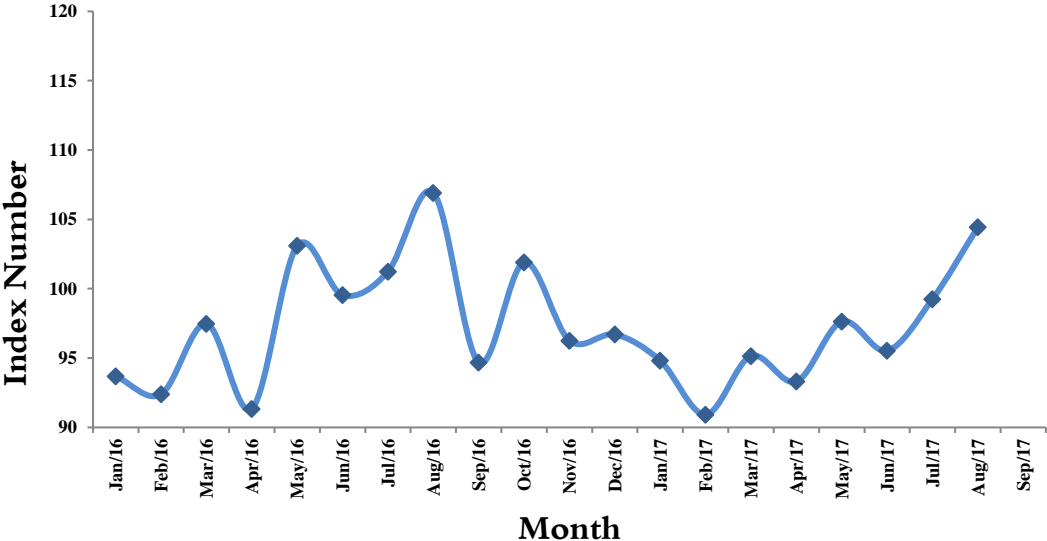

The monthly report issued by the Department of Statistics indicates an increase in the General Industrial Index Number of the Industrial Production Quantities to 98.7 during Sep. 2017 against 94.7 during Sep 2016 which lead to an increase by 4.2% as compared with the same period of 2016. This increase resulted from a growth in the quantities of the *Manufacturing Industries* by 3.8% with a relative importance of 86.0% (representing an increase of 3.8 percentage points) and quantities of *quarrying production* by 6.2% with a relative importance of 8.2% (an increase of 0.2% percentage points) and the quantities of *electricity production* by 8.0% with the relative importance of 5.8% representing an increase of 0.2 percentage points.

The report indicates also a decrease in the industrial index number of the industrial production for Sep 2017 to 98.7 against 104.4 for Aug 2017 which lead to a decrease by 5.5%. This decrease was a result of a retreat in the production quantities of the *manufacturing Industries* by 5.9% with a relative importance of 86.0% ( representing 4.9 percentage points) and the production quantities of *electricity* by 11.5% with a relative importance of 5.8% ( representing a decrease of 1.0 percentage points). Meanwhile, there was an increase in the quantities of *quarrying production* by 3.1% with a relative importance of 8.2% (representing an increase of 0.4 percentage points).

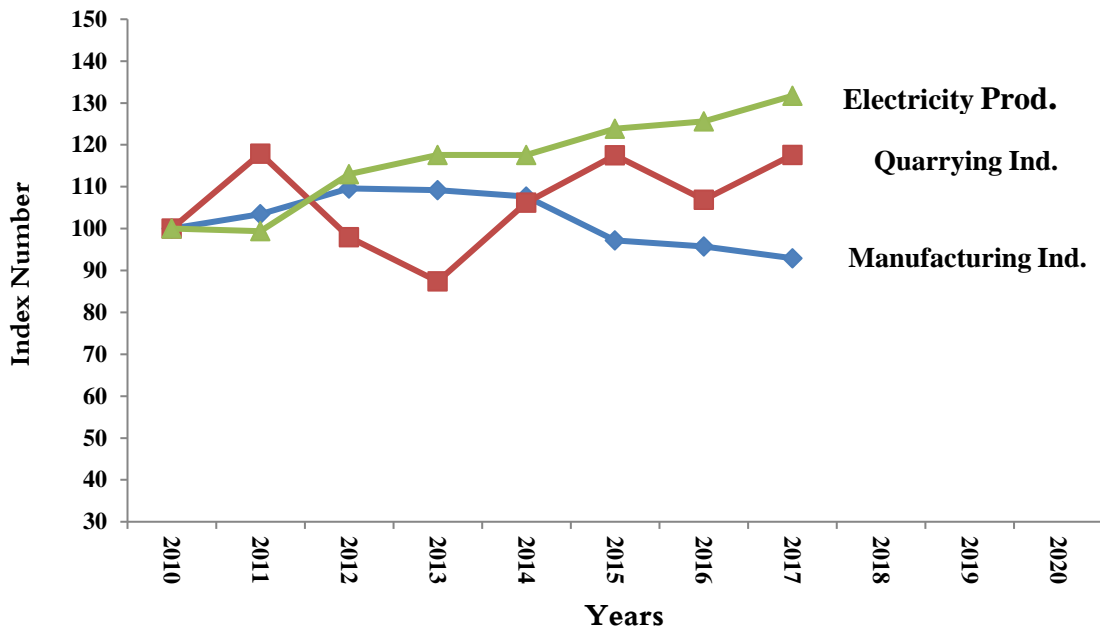

Comparing the data of the first nine months it shows a decrease in the industrial index number of industrial production to 96.6 against 97.8 for the same period of 2016 which lead to a decrease in the industrial index number of industrial production by 1.2% compared with the same period of 2016. This retreat was a result of a decrease in the production quantities

of the *manufacturing Industries* by 3.3% with a relative importance of 86.0% representing an increase by 9.7 percentage points, Meanwhile, there was an increase in the quantities of the *quarrying production* by 16.2% with a relative importance of 8.2% representing an increase by 7.0 percentage points and the production quantities of *electricity* by 4.2% with a relative importance of 5.8% representing an increase by 1.4 percentage points.
