Industrial Production Quantities decrease by 2.6% during August

2017 compared with the same period of 2016

The monthly report issued by the Department of Statistics indicates a decrease in the General Industrial Index Number of the Industrial Production Quantities to 104.1 during Aug 2017 against 106.9 during Aug 2016 which lead to a decrease by 2.6% as compared with the same period of 2016 it was 3.9%. This decrease resulted from a retreat in the quantities of the Manufacturing Industries by 2.7% with a relative importance of 86.0% (representing a decrease by 2.3 percentage points) and quantities of quarrying production by 5.3% with a relative importance of 8.2% (a decrease by 0.5% percentage points).

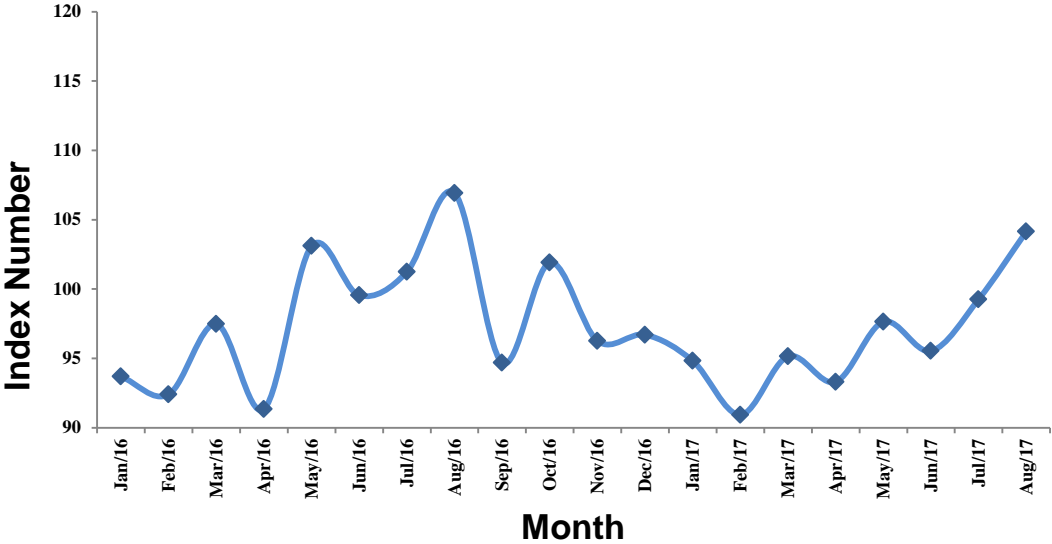

whereas , there was an increase in the quantities of electricity production by 3.2% with a relative importance of 5.8% (representing an increase by 0.3 percentage points).

The report indicates also an increase in the industrial index number of the industrial production for Aug 2017 to 104.1 against 99.3 for July 2017 which lead to an increase by 4.9%. This increase was a result of a growth in the production quantities of the manufacturing Industries by 5.9% with a relative importance of 86.0% (representing 4.8 percentage points) and the production quantities of the quarrying industries by 1.8% with a relative importance of 8.2% (representing an increase by 0.2 percentage points). While there was a decrease in the quantities of electricity production by 4.6% with a relative importance of 5.8% (representing a decrease by 0.4 percentage points).

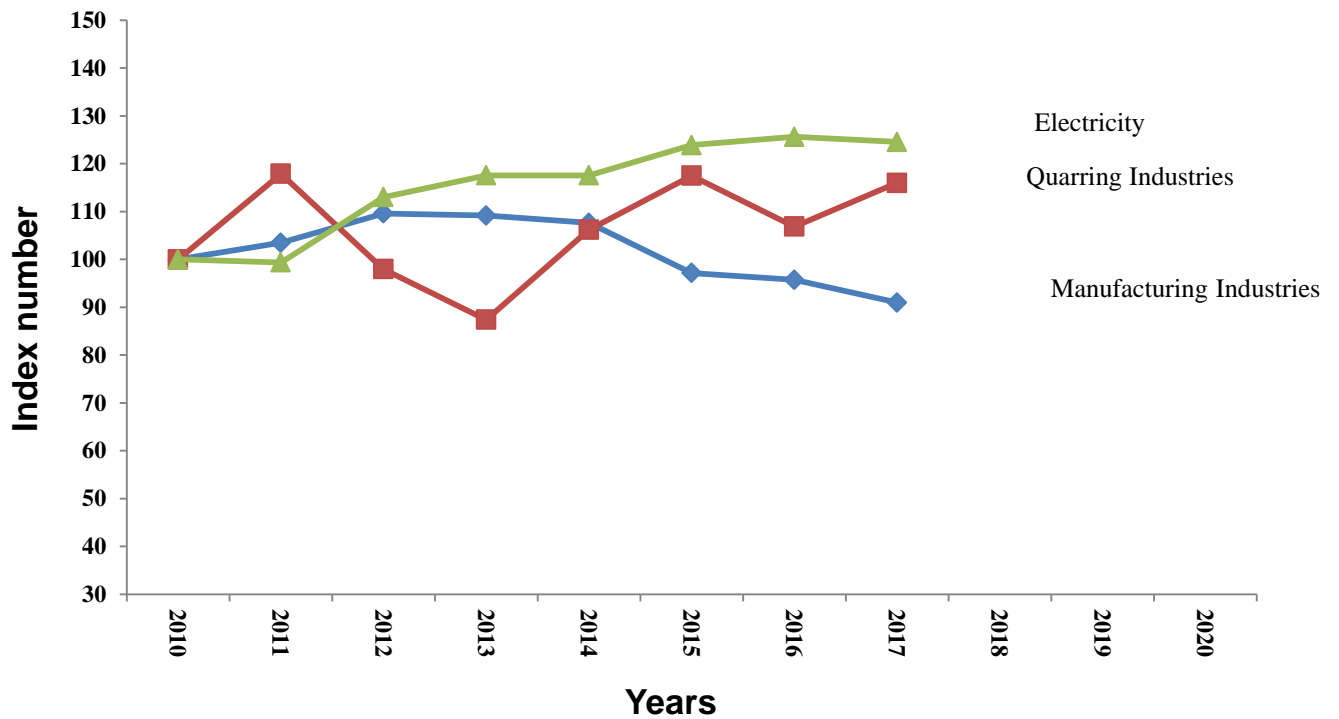

Comparing the data of the first eight months it shows a decrease in the industrial index number of industrial production to 96.3 against 98.2 for the same period of 2016 which lead to a decrease in industrial index number of industrial production by 1.9% compared with the same period of 2016 it was(2.9%). This retreat was a result of a decrease in the production

quantities of the manufacturing Industries by 4.2% with a relative importance of 86.0% representing a decrease by 3.6 percentage points, Meanwhile, there was an increase in the quantities of the quarrying production by 17.6% with a relative importance of 8.2% representing an increase by 1.5 percentage points and the production quantities of electricity by 4.2% with a relative importance of 5.8% representing an increase by 0.3 percentage points.

The IPI Index Number by month for 2016 & 2017

IPI for the Main Industries in 2010-2017

The average monthly and accumulative change of Industrial Production Quantities during 2016 and 2017

Month	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2016 Monthly	-3.3	-1.4	5.5	-6.3	12.9	-3.5	1.7	5.6	-11.4	7.6	-5.5	0.4
