**Industrial Production Index increased by 0.90% in
February 2023 compared with the same period of 2022**

The monthly report issued by the Department of Statistics indicates an increase in the Industrial Production Index for February 2023 to reach 85.84 against 85.07 for the same month of 2022 recording an increase by 0.90%. This mainly was a result of an increase in the index of manufacturing industries by 0.07% with a relative importance of 86.01%, quarrying industries by 5.52% with a relative importance of 8.22%. Meanwhile, there was a decrease in the production of electricity by 7.10% with a relative importance of 5.76%.

The report also indicates an increase in the industrial production index for the first two months of 2023 to reach 88.41 against 87.14 for the same period of 2022 to record an increase by 1.46%. This growth has resulted mainly from the increase in the index number of the manufacturing Industries by 1.15% with a relative importance of 86.01%, the index number of the quarrying industries by 4.22% with a relative importance of 8.22% and the index number of electricity production by 1.84% with a relative importance of 5.76%.
